

TERREBONNE PARISH  
COASTAL ZONE ADVISORY COMMITTEE

MITIGATION PROJECTS

---

1/15/03

**Proposed Project Location:**

Marsh Protection, M-Houma Navigation Canal Wetlands Unit

T19S-R17E, Section 87

**Problem:**

Marsh Vanishing due to saltwater intrusion, flooding throughout culverts under Parish Road 61

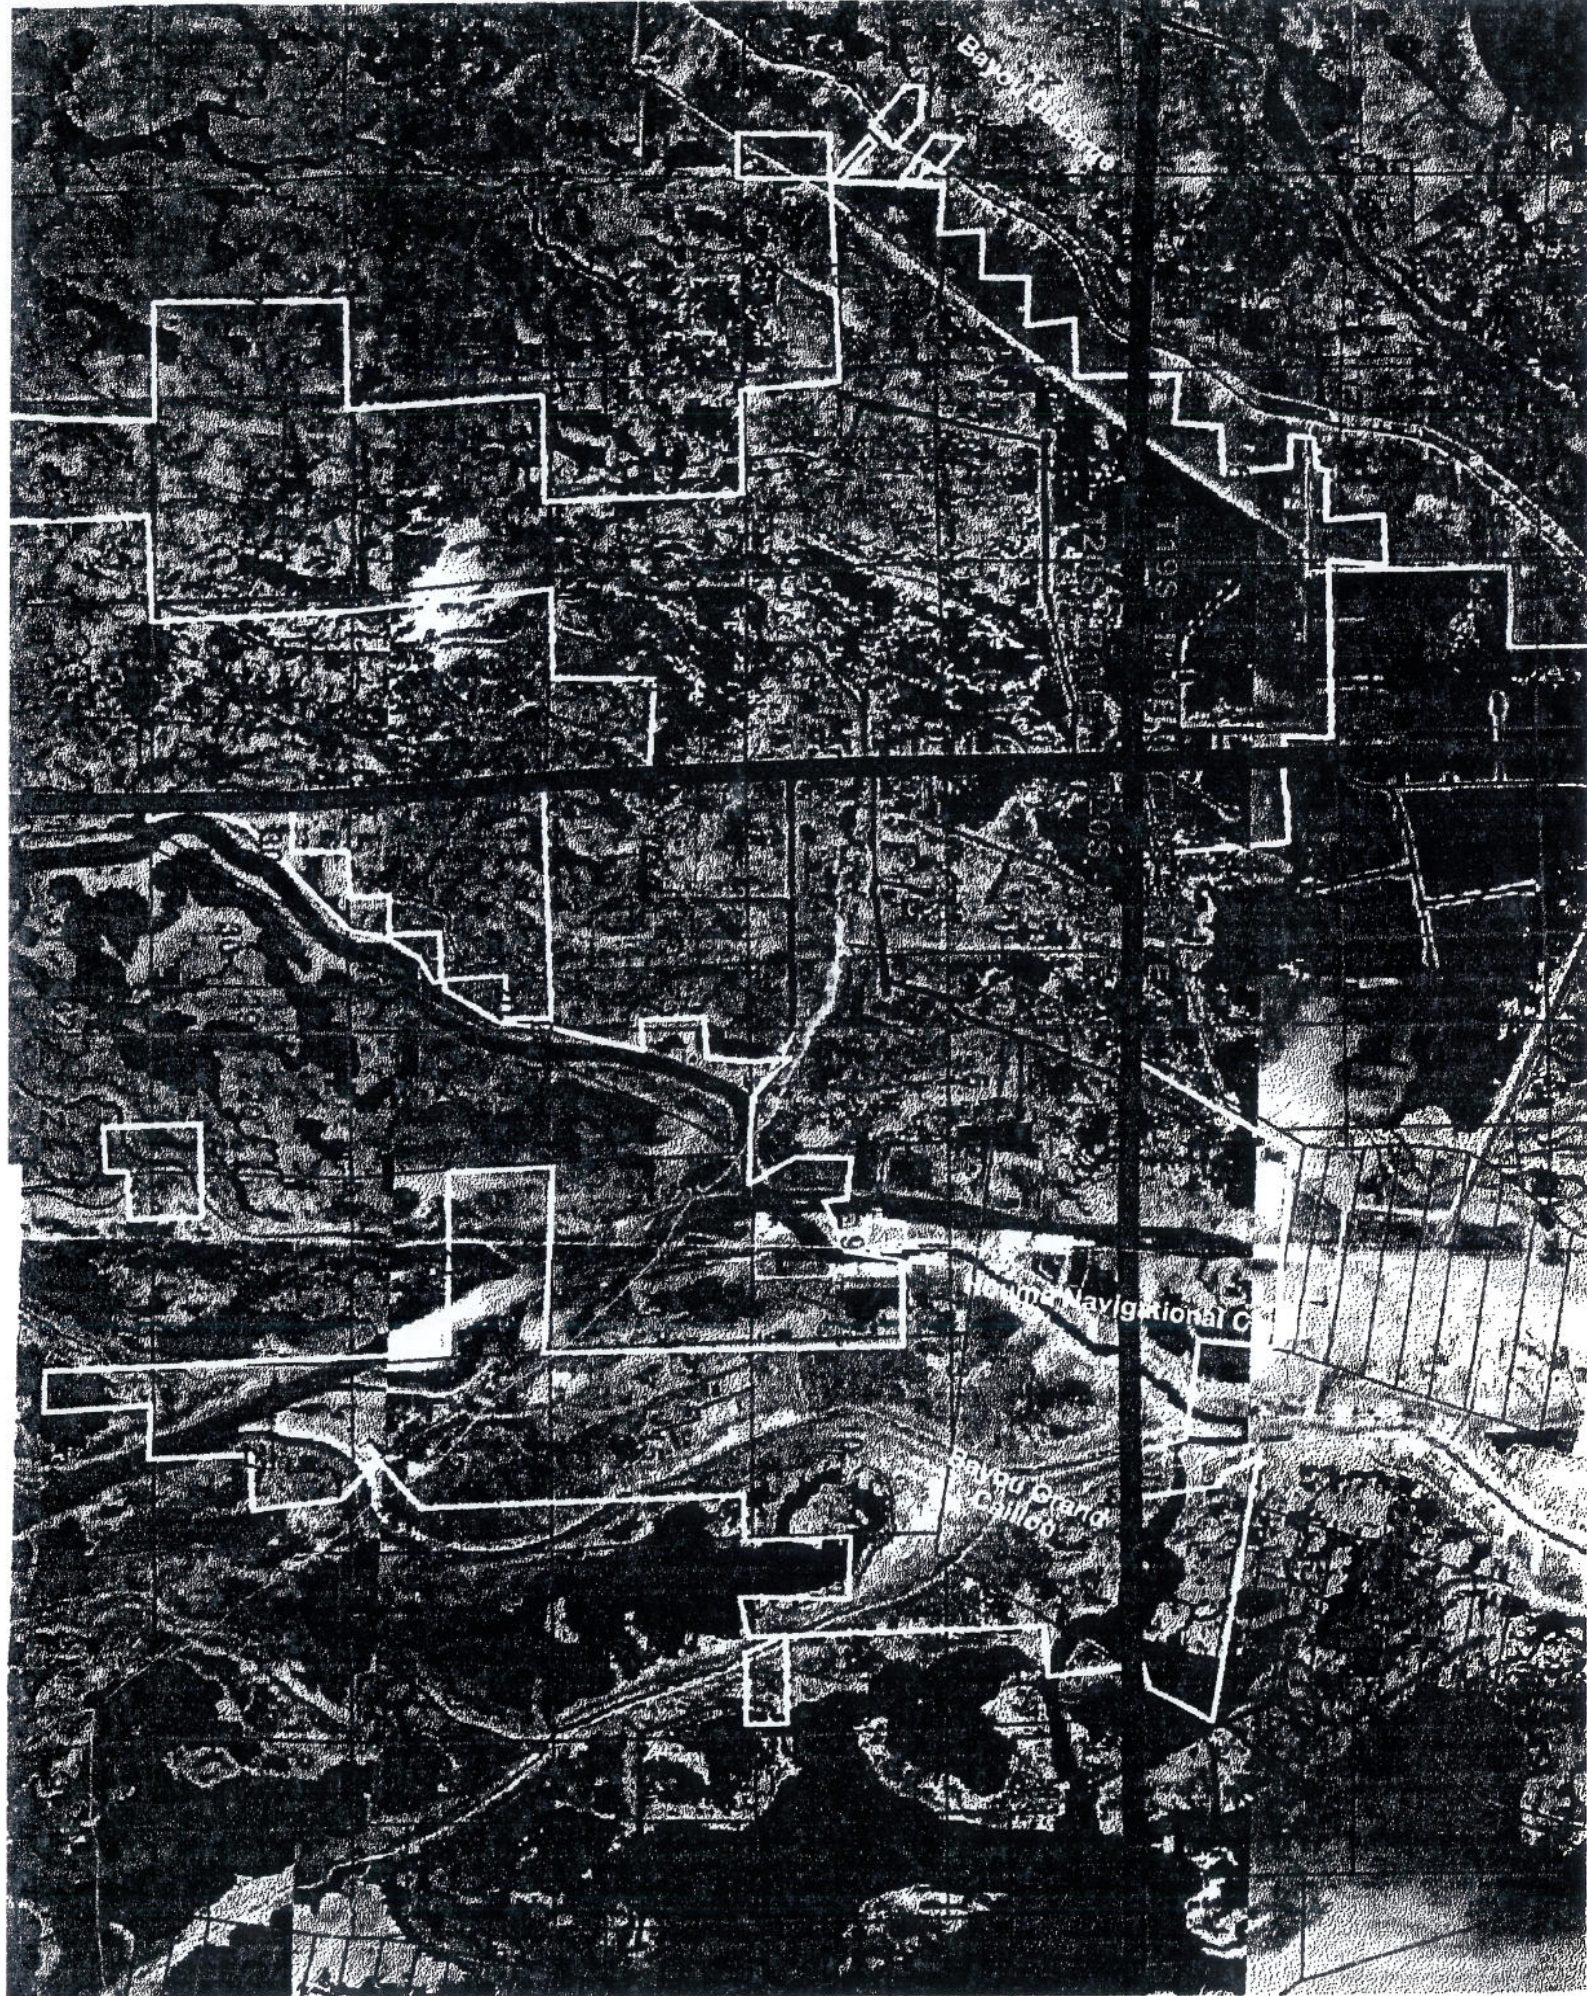

Note: Located on east bank of Houma Navigation Canal approximately ½ mile below pontoon bridge. Cut at end of a man-made oilfield drilling slip.

System Needs:

- 1) Closure of drilling slip
- 2) Earthen dam – topped with rocks

*Submitted By: Cyrus J. Theriot, Jr.*

1. The first part of the document is a list of names and addresses, which appears to be a directory or a list of contacts. The names are written in a stylized, possibly handwritten, font. The addresses are also written in a similar style, but are less legible.

1. 1. The first step in the process of creating a new product is to identify a market need.  
 2. 2. The next step is to develop a concept that meets this need.  
 3. 3. This is followed by the development of a prototype.  
 4. 4. The final step is to test the product in the market.
